### LINEAGE RESEARCH COMMITTEE

The Lineage Research Committee regularly checks the Pending Members report for all ASDAR chapters in e-Membership, and contacts registrars when we see an Additional Information Requested letter has been sent. If we can help with that prospective member's application, we ask them to let us know. We also request that chapters give themselves more credit for their Lineage Research efforts on next year's Master Questionnaire. We know that many chapters did more than last year's responses indicated.
