

**CONSERVATION COMMITTEE**  
**April Baily**  
**Committee Chair**

**The new national focus for the DAR Conservation Committee**

**"Plastic Pollution Awareness, Beyond the Water Bottle"**

**DAR Member challenge: "No Straw September"**

**DAR Chapter challenge: "Sea to Shining Sea"**

Plastic pollution is a great threat to our lakes, rivers and oceans. Most plastic pollution in our water comes from land pollution. Chapters are challenged to organize and/or participate in a community cleanup of a lake, river, or ocean. The goal is for 100 chapters to organize a cleanup in 2020.
