Important

Receiving Awards

Your chapter did all the right things, they had a Flag Minute each month at their meetings, handed out flags, gave flag certificates, place flags at grave sites, filled out their CMR with all of the chapter's flag activities so why didn't they receive an Award Certificate. Did your chapter flag chairman send in a report on these activities? Probably not! That final thing is so important. Notice it says on the CMR "to receive an award you must send a report of flag activities to the state flag chair".

What makes a good report?

Write a narrative of all the flag activities and events your chapter has participated in during the year. Make a collage of all the pictures and newspaper clippings showing these flag activities. Print out on a lightweight cardstock paper that has some body to it. It makes the report much nicer. Or it could be printed on Bond paper and placed in a binder. Last but not least. Send in on time to the state flag chair. Then it can be considered for an award. The winner of the state moves on up to the South Central Division level.
